### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mr. James Edmondson on 11/15/2007.

The application has been amended as follows:

On line 2 of claim 7, replace "an object" with --objects--.

On line 3 of claim 7, replace "an object" with --objects--.

On line 2 of claim 10, replace "an object" with --objects--.

On line 3 of claim 10, replace "an object" with --objects--.

### ***Allowable Subject Matter***

3. Claims 7-12 are allowed.
4. The following is an examiner's statement of reasons for allowance: The prior art discloses numerous object detection systems and methods which combine the results from radar and image detection units. However, the prior art fails to disclose a system or method including the detection of:

a combination of an object detected by the radar detection unit and an object selected among those detected by the image detection unit which is the closest to the object detected by the radar detection unit;

a combination of an object detected by the image detection unit and an object selected among those detected by the radar detection unit which is the closest to the object detected by the image detection unit;

determining whether there is a coincidence between the combination of the object detected by the radar detection unit and the selected object as being closest thereto and the combination of the object detected by the image detection unit and the selected object as being closest thereto, and determining when there is the coincidence, that the object detected by the radar detection unit is the same as the object detected by the image detection unit.

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited art relates to various object detection systems and methods.
6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
